

KANURI JAGAN SATYA SAI

Amalapuram, Andhra Pradesh | +91-8688295885 | jagansatyasaikanuri@gmail.com

PROFESSIONAL SUMMARY

Results-driven Java Backend Developer and AI & ML Engineering graduate with hands-on experience in Java, Spring Boot, Microservices, and RESTful API development. Proficient in multithreading, Java Collections Framework, and exception handling. Experienced in layered architecture, Spring MVC, Spring Data, Spring Security, MySQL, and Docker. Seeking an entry-level Java/Backend Developer role to design and implement scalable, production-ready microservices and Dockerized applications.

TECHNICAL SKILLS

Languages: Java (Core Java, Multithreading, Collections, Exception Handling)

Backend Frameworks: Spring Boot, Spring MVC, Spring Data JPA, Spring Security, RESTful API Design

Microservices: Microservices Architecture, Microservices Design Patterns, REST API Implementation

Containerization: Docker, Dockerfile, Docker Images, Docker Compose, Dockerized Environments

Databases: MySQL, MariaDB

Cloud (Familiar): AWS (Basic Knowledge)

Frontend (Basics): HTML, CSS, JavaScript

Tools & IDE: Maven, Git, GitHub, Spring Tool Suite (STS), Bruno, Postman

PROJECTS

Service Request Workflow Automation System

Java | Spring Boot | Spring MVC | Spring Data JPA | REST APIs | MySQL | Docker

- Designed and implemented RESTful APIs following REST API design best practices for request creation, approval, escalation, and closure workflows.
- Implemented **role-based access control** using Spring Security for Users, Approvers, and Admins.
- Followed strict **layered architecture** (Controller → Service → Repository) with Spring MVC and Spring Data JPA.
- Utilized Java **multithreading** and **Collections Framework** for concurrent request handling and data management.

Aadhaar Application Management System

Java | Spring Boot | Spring Data JPA | RESTful APIs | MySQL

- Built and deployed production-ready **RESTful APIs** with complete CRUD operations following REST API design principles.
- Leveraged **Spring Boot** with Spring Data JPA and **exception handling** for robust, fault-tolerant backend logic.
- Applied **Spring Boot** annotations, dependency injection, and best practices for clean, maintainable code.

EDUCATION

B.Tech – Artificial Intelligence & Machine Learning

Bonam Venkata Chalamayya Engineering College | 2023 – 2026 | CGPA: 7.35

Diploma – Computer Science

BVC Institute of Technology and Science | 2020 – 2023 | Percentage: 76%

CERTIFICATIONS

-
- Java Certification – Nies Academy, Hyderabad
 - Full Stack Development – SmartBridge Educational Services
