

KANURI JAGAN SATYA SAI

Amalapuram, Andhra Pradesh | +91-8688295885 | jagansatyasaikanuri@gmail.com

PROFESSIONAL SUMMARY

Motivated Software Developer and AI & ML Engineering graduate with strong hands-on experience in Java full-stack development, backend development, RESTful API design, and software engineering. Proficient in Java, Spring Boot, SQL, JavaScript, and web development fundamentals (HTML, CSS). Familiar with software testing concepts including manual testing and test case design.

TECHNICAL SKILLS

Languages & Programming: Java

Backend Development: Spring Boot, Spring MVC, Spring Data JPA, Spring Security, RESTful API Design

Frontend Development: HTML, CSS, JavaScript, Web Development

Databases: MySQL, MariaDB, SQL Queries, CRUD Operations

Software Testing: Manual Testing, Test Case Design, API Testing (Bruno, Postman)

Tools: Maven, Git, GitHub, Spring Tool Suite (STS)

PROJECTS

Service Request Workflow Automation System

Java | Spring Boot | Spring MVC | Spring Data JPA | REST APIs | MySQL | JavaScript

- Developed a full-stack **software application** automating service request workflows — creation, approval, escalation, and closure.
- Designed and implemented **RESTful APIs** following **software design** and **backend development** best practices.
- Applied **role-based access control** with Spring Security for Users, Approvers, and Admins — equivalent to multi-user **manual testing** scenarios.
- Followed strict **layered architecture** (Controller → Service → Repository) ensuring clean **software engineering** principles.
- Performed **API testing** (manual testing) using Bruno and Postman throughout development to validate endpoint behavior.

Aadhaar Application Management System

Java | Spring Boot | Spring Data JPA | RESTful APIs | SQL | MySQL

- Built production-ready **RESTful APIs** with full CRUD operations — a core **backend development** and **software programming** exercise.
- Designed the application using **software design** patterns and OOP principles for maintainability and extensibility.
- Leveraged Spring Boot with Spring Data JPA and **SQL**-backed MySQL for robust, fault-tolerant data handling.
- Conducted systematic **manual testing** of all API endpoints to verify correctness, edge cases, and exception scenarios.

EDUCATION

B.Tech – Artificial Intelligence & Machine Learning

Bonam Venkata Chalamayya Engineering College | 2023 – 2026 | CGPA: 7.35

Diploma – Computer Science

BVC Institute of Technology and Science | 2020 – 2023 | Percentage: 76%

CERTIFICATIONS

-
- Java Certification – Nies Academy, Hyderabad
 - Full Stack Development – SmartBridge Educational Services
